About the course Building an ai agency

Course Presenter : Liam Ottley

Building an ai agency, in this course we will learn about building an AI agency from the ground up, including choosing your niche, creating service packages, setting pricing, and forming your business model. You'll discover how to identify high-demand AI solutions such as chatbots, automation tools, and data analytics that solve real client problems. Weâ€™ll also cover how to build a skilled team, find reliable AI tools, manage client projects, and deliver results that build long-term trust. Marketing and client acquisition strategies are included, with a focus on how to attract your first clients and scale operations sustainably. Whether you're a freelancer, entrepreneur, or tech enthusiast, this course will equip you with the roadmap to turn AI expertise into a profitable agency. Liam Ottley
