About the course AI agency developer

Course Presenter : Liam Ottley

AI agency developer, in this course we will learn about AI agency developer course. This course is designed to equip developers with the technical skills required to build and deploy AI solutions within a professional agency setting. You'll learn how to develop custom AI tools, integrate APIs, manage data pipelines, and deploy machine learning models using modern frameworks and cloud services. The course covers backend and frontend development tailored for AI-driven applications, with a focus on creating scalable and maintainable solutions for clients. You'll also explore how to automate workflows, manage model lifecycle, and deliver AI as a service (AIaaS). Whether you're a solo developer or part of a growing team, this course provides hands-on experience and real-world projects to prepare you for the demands of working in or starting a tech-enabled AI agency. By the end, youâ€™ll be ready to develop and launch powerful AI solutions that drive business value. Liam Ottley
