About the course Building Ai businesses

Course Presenter : Liam Ottley

Building Ai businesses, in this course we will explore the core steps of building successful AI-driven startupsâ€”from identifying real-world problems that AI can solve to designing sustainable business models. Youâ€™ll gain practical knowledge on how to develop AI-powered products using tools like OpenAI API, create a minimum viable product (MVP), and validate your solution in the market. We will also cover strategies for monetization, customer acquisition, and scaling your AI business. Legal, ethical, and data considerations will be discussed to ensure compliance and responsible AI use. Whether you're a developer, entrepreneur, or innovator, this course will guide you step-by-step through building, launching, and growing your own AI startup. Liam Ottley
